

## **Kisolite appoints 3 additional members to its Scientific Board**

### **FOR IMMEDIATE RELEASE**

**Chilliwack, BC, Canada – December 3, 2018-- Kisolite Corp.**, the exclusive marketer of all natural “Kisolite”, announces that Dr. Neil Branda, Dr. Dirk Lange and Rowland Hanson have joined the Scientific Board of the company.

Dr. Neil Branda is a Professor of Chemistry and the Canada Research Chair in Material Science at Simon Fraser University. He is also the Executive Director of 4D LABS, a research centre for advanced materials and nano-scale devices.

Dr. Dirk Lange is a microbiologist who earned his Ph.D. (honours) in Microbiology and Immunology from the University of Western Ontario. He is currently at the Jack Bell Research Center at Vancouver General Hospital conducting research on urinary biomaterial design and the development of mechanisms that prevent bacterial adhesion, colonization and biofilm formation on surfaces of ureteral stents and urinary catheters.

Rowland Hanson holds an MBA from the Wharton School of Business in Pennsylvania. He served as the VP of Worldwide Marketing for Neutrogena Corporation. He served as a branding consultant for Monsanto, IBM and while at Nautilus he introduced the BowFlex brand. Hanson worked as the VP of Corporate Communications at Microsoft where he is credited with introducing the ‘Windows’ brand. He serves as the GM of Strategic Partnering for the Microsoft Alumni Association and is the CEO of the HMC Company.

The Scientific Board of Kisolite Corp advises the company on strategy, planning and execution of scientific research on the mineral clay from Kisameet Bay.

### **About Kisolite Corp**

Kisolite Corp owns the exclusive rights to Kisolite for Licensing Agreements, supply, product development, formulations, research, sales and marketing. *This press release may contain forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects" or "does not expect", "is expected", "estimates", "intends", "anticipates" or "does not anticipate", or "believes", or "recurring" or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors, such as demand for the Company's products, currency exchange changes and risks, internal funding and the financial condition of the Company, product roll-out, competition, technological changes, and other commercial matters involving the Company, its products, and the markets in which the Company operates, as well as general economic conditions, which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.*

*Actual results and developments are likely to differ, and may differ materially, from those expressed or implied by the forward-looking statements contained in this press release. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.*

*Except as required by law, we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. However, any further disclosures made on related subjects in subsequent reports should be consulted.*
